

Submitter: Katrina Myers

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

I have been an Oregon resident since 1969, and when Oregon implemented vote by mail, I was delighted. I am now able to send in my vote after considering the issues before me from the comfort of my home. Having to go to a polling place again would be highly irritating especially since our system for voting in Oregon is so good. I believe this measure is specifically calculated to make it difficult for people to vote, and so I am opposed to a measure that is meant to break something that is not broken.
