Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

As a current retiree of the US Postal Service, I strongly support SB210. I saw so many instances where one house received 4 or more ballots but normally only received mail for 2 people. Absentee ballots can and should be requested, not mailed automatically to out-of-date names and addresses. This is our most important civic duty and privilege. Don't let us lose faith in our State's elections. Mail in ballots are very convenient and a necessity for many, but there are reasons why there are only 8 states out of 50 that mandate mail in voting. Let's clean up our voter rolls and only send out legitimate ballots that have been requested.
