SB210

Regarding SB210

It is imperative that we return security to our elections. It is shameful that Oregon has chosen to run their elections in a way that invites dishonesty and cheating. Their procedures ignore international norms for security.

My entire life, elections were done on a single day, in person, with ID and on paper (unless there was an excuse for mail in ballots...a rare event). Our elections should be run the same way.

Please return sanity and honesty to the process.

Thank You

Keith Eilerman
