

Submitter:

Esther Kim

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

As a full time physician who is often on all 10-12 days out of the month, it is a very rare opportunity for me to be able to go in person to vote. Not being able to vote by email would deprive me of my right to representation. This is just another method to suppress people's right to vote, particularly marginalized communities, and we know how that play book goes, authoritarian regimes and skewed representation of the people with malappropriation of power and disenfranchisement of marginalized populations. Vote NO on SB 201.
