I enjoy filling in my ballot in the privacy of my Home with a civil discussion of the issues with my husband. It is the truest exercise of my democratic responsibility I prefer to drop off my ballot in an official ballot box. Vote By Mail is an appropriate and ideal system for voters. Everyone I know prefers vote by mail and will reject standing in line to deal with old lady volunteers searching through paper precinct lists for the voters names before handing them a ballot. Vote by mail is efficient.
