Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I accidentally chose the wrong option in the testimony I just submitted. Instead of opposing I inadvertently supported voting in person. My previous testimony shows I am strongly against requiring mandatory in person voting. Please disregard my previous submission & note that I have taken the time to correct my testimony.

I am ABSOLUTELY AGAINST making voting in person the only viable option to cast a vote. Mail in ballots should not be outlawed as that is discriminatory to individuals who may be unable to vote in person for a variety of reasons. I STRONGLY OPPOSE this bill; please wake up & do the same!
