

Submitter: Michael Pitts-Campbell

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

SB 210 is nothing more than a solution searching for a problem. Voting by mail has worked very well in Oregon for over 30 years.

There is not even a justification offered for the existence of this bill. The only rationale ever offered for eliminating voting by mail was that it could permit fraud. The problem with that rationale is that there is virtually NO fraud, the measured percentage being some tiny fraction of 1% .

This bill should die, painfully, in committee and be buried at midnight in a forgotten cemetery with a wooden stake driven through where its heart should be.
