Measure, Appointment or Topic:

SB210

Oregon's vote by mail system has always been secure, accurate, efficient, and effective. Particularly in today's political environment, anyone attempting to weaken it, is simply helping the traitorous federal administration further damage the democratic infrastructure of our country. Support for this measure equates to complicity with Trump, his agents, and the destruction of our democratic ideals. I do not believe this bill could be supported, in good faith, by any elected official who cares at all for the people of the State of Oregon.
