Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

Mail voting works and is safe, secure, and has a track record of being accurate. Republicans want to disenfranchise folks who might otherwise find it difficult to physically go into a polling station, because they know making it harder to vote discourages people. The only way they can win is to try to get as few people voting as possible. They have no shame. I vehemently oppose this legislation.
