Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Oregon's mail- in ballot system has been around a long time. From what I understand any voter fraud is very very low. Also it would be a hardship for many oregonians especially those living rurally and those that are disabled to have to go vote in person. I believe that there is no valid reason to change the way oregonians vote when the system has been working very well for a very long time.
