SB210

This is a crazy idea. We should be making voting easier not harder. With voting by mail you have time to consider your vote, rather than only seeing the ballot for the first time when you have it in front of you in the polling booth, not to mention the convenience. What about people with disabilities? And we know that research shows that VOTING INCREASES IN STATES THAT ALLOW UVM. Why would anyone interested in a true democracy vote for this bill? Outrageous. Please do not vote for this bill.
