

Submitter:

Anne Horner

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Vote by mail allows consideration, research and privacy. It does not require travel, waiting in line, or conflicts with work. The accuracy of vote by mail has been examined in Oregon for 20 years, and there is no evidence of fraud that would have changed the reported results of any election anywhere in the state. It is cheaper and considerably less likely to technical hacks or glitches. Please let us keep voting by mail!
