

Submitter: John Foster

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

As a lifelong Democrat, I fully support getting off of mail-in voting here in Oregon. Voting by mail presents too many opportunities for mischief. There is a large part of our voting population that does not trust the outcomes of our elections, and I want as large a number of voters as possible to have overwhelming confidence that our elections are fair and accurately counted.

I have received multiple ballots at our home for individuals who do not reside at our residence.

I prefer local precinct voting, a one day holiday for voting in person, paper ballots, ID required, and an opportunity for absentee ballot use.
