Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

To Our Legislators,

I have been an Oregon resident all my life. The fact this bill is even being considered is appalling. I have been proud of Oregon and our stances on many things, and vote-by-mail is one of the things I know we do right. Taking that away and forcing people to wait in line on a day that is not a work holiday is undemocratic and is not a better system than voting by mail. Voting by mail keeps voting accessible to any and everyone. This is more important than ever and I am putting my voice out there and have to say I am disappointed it's even being considered. Thank you for reading.
