SB210

Why in the world would we ever repeal our previous vote by mail system that has worked wonderfully for so many years? I know too many seniors who would not be able to vote. Standing in line would be prohibitive for them. This is much ado about nothing, and our voting system has worked well for Oregonians for years. I fear the next step will be eliminating our votes altogether. Wake up America. For Heavens sake. Will somebody stand up and do the right thing for our country? Or are we over it now?

Discouraged Oregonian.
