SB210

I moved here from across the country a few years ago, and have been glad to be able to vote by mail. I appreciate the time I have to truly research the ballot and candidates, and to be able to talk about my ballot with friends and family. I believe that making access to voting so simple and accessible as possible for all is a critical part of our democracy, and while the system in Oregon is imperfect, it is far better than the voter suppression this bill will allow.
