Voting by mail works for Oregon. It has for many, many years. It's convenient, fast, and reliable. Since vote by mail started, I have voted in each and every election, even the small local ones.

With vote by mail, senior or disabled people don't have to struggle with getting in and out of their vehicle and into the polling place. Parents don't have to wrestle their kids while trying to vote. We're not limited by the hours the voting station is open. We can fill out our ballots when it is convenient. There's no bad weather to deal with. Anyone registered has a chance to vote.
