Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Our privilege to submit our votes, in person and ON Election Day, has been eroded by mail-in voting. This practice has created more problems than it's worth. It is our duty to make the time to cast our ballots, and it is not difficult or a hindrance. Validating our identity is something all adults must do for reasons far less important than voting, and is not an issue, unless it's being done illegally.
