

Submitter:

Cynthia Gray

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I strongly oppose the suggestion that in person voting is preferable to the mail in ballot method that Oregon has been able to successfully complete for years. We have a significant rural community. We have seniors, people who don't drive, and variable work schedules which would cause the voter turnout to be reduced and inaccessible . I hope this consideration is all bluster and not serious but in the chance that it is, I hope you will consider supporting the whole community and continue to have mail in voting available to all residents in Oregon.
