Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Ending mail-in ballots and requiring Voter ID. And in person voting is simply an effort to suppress voters. There has been no evidence of fraudulent mail in ballots affecting any election in the united states. Identification is already required for people to register to vote where their Identity is validated at the time of registration. The requirement for having your name match your birth certificate is an obvious effort to suppress the vote of women. Don't let Our free and fair Election system be destroyed by a corrupt administration looking to seize power and hold it at any cost so they can build a fascist regime and end democracy in our country.
