

Submitter:

Meloney Robles

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I strongly support SB210 and encourage the committee to pass this important and vital measure for our amazing state. The only way for Oregon to fully achieve honest and fair elections is to return our state to in person voting and require id to vote as well. Mail in voting is a risk to our democracy and leaves the possibility of fraudulent mail in votes being counted and elections being rigged. The American citizens deserve to have voter integrity be the top priority of our state. So we can believe in our elections once again and know our votes are all being handled with the utmost care. Please support this measure with us and show the American citizens of Oregon that you truly do care about honest and fair voting and elections.

Thank you for taking the time to consider this testimony.

Sincerely

Meloney Robles
