Voting by mail is the best and safest way to vote. We, in Oregon have been voting by Mail for a long time and have not had any problems. Part of this reason is that people are basically honest, good and kind. It will be a sad day when humanity diverges from its holistic healthy inclinations. Laws and regulations help keep people honest but force does not reveal what is in our hearts. Voting by mail allows seniors and working people the opportunity to vote in a relaxed, non-stressful environment. It is a good way to send our choices in to be counted. Don't mess with a good system. Thank you.
