SB210

To whom it may concern,

I have lived in Oregon most of my life and voted by mail for 33 years. If we are truly a democratic country, we should WANT to hear everyone's voice. Voting should be EASY and CONVENIENT; allowing us to vote by mail achieves that goal. I think the entire country should be vote by mail instead of in-person. In-person voting requires the ability to be mobile, to have childcare, to have time, and the physical ability to wait in long lines. All of these obstacles should be removed from the process of voting.

Please protect Oregonians' right to vote by mail.

Thank you,
