Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I vehemently oppose SB 210. Mail in voting gives the voters time and space to vote thoughtfully and without pressure. It gives people with disabilities the opportunity to vote painlessly. It gives rural communities assurance that their vote will be counted. Passing this would absolutely and without a doubt reduce voter turnout massively. And in turn affect election results deeply and negatively. This measure is a slap in the face of voter's rights and would only contribute to further political instability.
