

Submitter:

Mitch R

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Don't change mail in voting! This system works and empowers as many people as possible to be voting members of our society. I can't believe you're wasting time on this measure when there are actual important issues in our state. Figure out how to replace the 100 million dollars that was doing amazing work keeping Oregon on the cutting edge of public health that Trump just unlawfully took back. Or figure out how to protect trans kids. Or figure out how to be sure no one gets snatched by ICE in it state. Or figure out how to keep people having health care, food, shelter. This is a waste of your time and my money shame on you.
