SB210

I am weighing on on the bill to repeal vote-by-mail in Oregon. My first thought is HOW CAN WE POSSIBLY BE TRYING TO GO BACK ON THIS?? Voting in person makes it so much more difficult for those who work, those who have disabilities, those who don't drive, those who don't have public transportation, and more! Why in the world would we be doing something that is going to cost so much money to dismantle current systems, along with putting in place new voting machines and polling places. This is only to appear our wanna-be dictator President. No, this is ridiculous to even consider. We are the example how all states should be running elections. It's safe, private, NON-HACKABLE, easy, more people vote when we eliminate barriers, and folks can vote from the comfort of their own space. This bill shouldn't even be a consideration!
