

Submitter:

James A Hanson Jr

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I have Had several ballots come to my Home and People do not Live at my Home and Have my address on them. I could easily fill them out and send them in to get fraudulent votes and i ask other people at work or just talking in store i get the same response is they have same problem .I believe we should have one day voting with valid id. The system that has been set up is fraudulent and has to omany errors and is ripe for fraud with no way to verify other than someone filled it out.
