Mary Buck

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I have a historical testimony to submit. In my personal history of voting it was not until 2002 that I was forced to do mail in balloting. I was shocked that it took so very long to get the results. In all of my voting history there has been strict regulations but such laxity has become the routine over the past 23 years. There has been lingering and lingering times to vote. This has resulted in prolonged uncertainty and an untenable time has been had by all. Please pass this bill and let's get back to the responsible and legal way of voting.
