SB210

I have almost no belief the voting system in Oregon is not rigged. Mail in voting opens the door to fraud. I remember going to the polls to vote. I also remember driving a visually impaired friend to her polling location so she could vote. We had different political views but I know each vote was correct.

I.D. is required to rent a car, a room, open a bank account and lately at 70 years of age to order a drink.

I fully support this bill.
