Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Mail-in and drop-off voting are essential to free and fair elections. Requiring personal appearance at a certain place on a certain day is an unnecessary hardship for many people due to work and transportation, and an impossibility for those who are injured or ill or disabled or away from home. Voting should be supported to make it as easy as possible for everyone to vote, because it is the foundation of our democracy. Mail-in and drop-off voting have worked well. We must keep them on behalf of all Oregonians. Do not prioritize or require in-person voting. Rebecca Dempsey
