As a senior I cannot stand in long lines waiting to vote. Voting by mail or dropping my ballot off in a secure ballot box has allowed seniors and disabled to be able to participate in our democratic right to voice our opinions. This bill is an attempt to restrict who can vote. This bill is simply an attempt to further the Trump's administration to enact Project 2025, remove our constitutional rights and put all decisions about our country in the hands of those who only support one view. I strongly oppose this bill.
