Senate Committee On Rules

Measure, Appointment or Topic:

SB210

It is highly important to protect our elections. We have seen an abundance of information regarding non citizens on our voting rolls and several 'accidents' by DMV helping foster these issues. Everything in life requires proof of identification and elections is our great Nations voice. Americans would like to have that voice and require that we all get a fair vote. Mail in ballots are not accurate to date. Just this election, I had other ballots arrive at my house. How many people received ballots to someone else like I did? How many of those got filled out and submitted? There's no way to track that. In person voting with ID seems to be the safest and most effective way to guarentee that each American Oregonion is being heard. There's no room for cheating if we all show up in person. Why would we not support something in our State that helps ensure safe and fair elections? The trust in Oregon elections has severely decreased, the trust and support in Oregon politicians AND policies has severely decreased and the majority of our State is screaming to be heard. I feel as a citizen of Oregon and this great Nation that Oregon owes us honest and transparent elections.
