

Submitter:

Meghan Radick

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Voting by mail has made voting accessible to me every year, regardless of my work schedule, life conflicts, my health, or even the weather. I am a fully able-bodied person with a moderately flexible schedule, and even so, voting in person would not always be an option. Removing the vote by mail system would make voting so much harder. The system has been working well for decades, and it should not be changed without a vote by the people.
