RE: Measure to end OR mail-in voting

Hi there –

As an Oregon resident I value mail-in voting for myself and others.

It allows employees to vote without interrupting their work schedule while waiting in lines at the voting polls. It allows employers to continue business as usual without employee work interruptions. It allows disabled citizens to vote from home.

The mail system and the drop box system are secure, valid means of voting. Please continue this smart Oregonian tradition that protects our way of life and our values.

Thank you,
Anjanette Seewer-Reynolds
