

Submitter:

DeAnne Hayes

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I and my family all fully support this measure. It is way past time that we ensure every ballot has been legally filled out, signed, and identification has been presented and confirmed. I would feel much better having my ballot verified in my presence rather than the current situation we have where I have to take the chance it will be declined. It's 2025, we can figure out how to get trained personnel to visit assisted living and nursing homes, family members can advocate for those immobile in homes. There is a way to do this successfully, as it had been done for decades prior to mail in voting.
