Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I object to this measure. Oregon has been successfully using vote by mail for years. There is absolutely no reason to change this. There are many reasons to keep it including the elderly that have difficulty with or no transportation, people living a greater distance away from ballot boxes ect. with limited or no transportation. Those are just a couple examples. The biggest reason is the fact that the only reason some people want this change is to gaslight others into thinking it isn't a safe fair way to vote when the facts show that it is.

Thank you

Kimberly Sollman
