

To Whom it May Concern:

I strongly oppose this bill, which amounts to voter suppression. Mail in voting has been the system in Oregon since I moved here in 1998. It makes voting easily accessible to all eligible voters and should be the standard for the United States, not the exception. This bill would make it harder for all voters to vote, and nearly impossible for some. It is a step away from democracy. Again, I strongly oppose this voter suppression bill.
