Julie Christian Christian

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

This is unacceptable. We should be offering MORE ways to vote, to make it easy and painless for citizens to vote. In-person voting is incredibly hard on working class folks, people with young children and those without transportation. This will greatly reduce voter turnout, especially for marginalized groups. Stop making this so hard, this is the foundation of our democracy, we need everyone to vote, everyone to be heard and counted. Make it easy for people to participate!
