

Eliminating vote by mail in the state of Oregon will create chaos and vastly reduce the number of Oregonians who participate in the legal voting process. Will the government of OR guarantee paid time off for many working individuals who are not allowed time off for voting? Voting needs to be made as accessible as possible for all Oregonians. We the people need the time to be informed voters. Vote by mail enables this by letting voters take the time necessary to read our voters pamphlet and make informed decisions when we have the time for it. Vote by mail has been one of the most fair and democratic processes in our state. We, the legal and registered voters, strongly oppose this right being taken away.
