

Submitter:

Molly Porter

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Voting must be accessible to all. It is clear that in this country not every state gives their voters a chance to vote; those with disabilities, the elderly who can't stand in long lines, those that can not take the day off of work, those with young children and no affordable childcare, those who are just busy, etc. Oregon has been a bastion of fair and easy voting. With little to no fraud. We must not go backwards with our voting. Please, keep our vote by mail which allows everyone an opportunity to vote and the time to educate ourselves on the issues at hand.
