SB210

Our system of voting is wonderful as it is. No time is lost because of having to miss work to vote, no long lines at obscure polling places, and the list goes on. The most important factor for me is that no one has proved significant voting fraud in Oregon for many years. Finding election monitors has always been a problem over time and voting by mail basically eliminates that problem. This is a measure in search of a problem and it makes no sense. Anyone voting for this measure should not be reelected, no matter what their party affiliation is!
