SB210

Please kill this bill banning mail-in voting in Oregon. Vote by Mail has worked beautifully for many years, without any significant "voter fraud". This bill is meant to suppress the votes of working people who may not be able to take time off work to stand in line at the polls, as well as Oregonians who live in very rural areas who may be forced to drive long distances to a polling place if this ban were enacted. It would take us in the wrong direction and it's just plain voter suppression.
