Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Voting by mail allows greater participation in the voting process. Voting is the most powerful tool we have in a democracy. Our current vote by mail system is proven safe, accurate, and equitable. Dismantling this system clearly disenfranchises folks who have less access to an in-person voting location at a specific time. We do still live in a democracy. Keep vote by mail in Oregon. Enshrine vote by mail in the state constitution. Encourage other states to implement vote by mail. It is a system that works almost perfectly as intended. I am deeply concerned that anyone should question this system's integrity and value.
