SB210

In keeping with much of modern, post 9/11 Republican fashion, this bill and its chief sponsor, Senator David Brock, are anti-democratic and anti-American. Whatever pretense there is for forcing in-person voting, the true function is to make it more difficult for votes to be cast against their increasingly fascist agenda. Republicans and trying to disenfranchise voters: name a more iconic duo. You may be able to fool some of the lesser educated among us, Senator Brock, but make no mistake, from your rejection of the 2020 election results, to your denial of the January 6th coup attempt, to this, your subservience to evil and lust for power is clear. I hear Russian "elections" are more up your alley, why not live there?
