SB210

Mail-in voting is greatly superior to in-person voting. It gives equal access to people who are disabled, busy working, ill, etc. It has been working well in Oregon and will continue to work if we leave things the way they are.

I personally have intermittent mobility issues that some days make standing and walking difficult. If I have a bad day on election day and have to go in person to vote, it would be very painful if it's possible at all.

Please do NOT pass this measure to essentially restrict voting to able bodied people with free time.
