

Submitter:

Sullivan Mackintosh

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I strongly oppose SB 210. Voting by mail makes our elections more fair and ensures equal rights to vote for all eligible Oregonians: it enables working class voters to vote without missing a needed day of work; small business owners to vote without closing their business for the day; rural voters to vote without having to travel a potentially great distance to their nearest polling location; elderly voters and voters with mobility-related disabilities the time and comfort to vote from home without standing in a line for hours; agricultural workers to vote without sacrificing the needs of their crops or livestock. Voting by mail is safe, fair, and benefits our democracy by giving all voters a right to have their say. Please vote NO on SN 210 and protect our right to vote by mail.
