Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I have never had to vote in person in the State of Oregon. For 20+ years, I voted via absentee ballot because I was living overseas or out of state, but always appreciated the opportunity afforded me to vote, then when I moved back to the State 15 years ago, we were already a couple decades into full mail in voting. Oregon has some of the best voter turnout in the nation and very little, if any, mistakes. Just because this horrible federal administration is trying to break everything does not mean that Oregon needs to follow suit. Our voting system works, and works well. Why break it?

Forcing voters to vote face to face, will reduce the number of voters that are able to show up, and for what? In order to become a voter, you are already verifying identity, so what exactly is the purpose of forcing people to vote face to face other than to suppress voters. Working families, the elderly, the disabled, these are the people that will stop being represented.

Please do not be like Trump, support your constituents like we hired you to do, and vote no to voter suppression, and Bill SB 210. Thank you.
