

Submitter: Amy Kinard

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

Our family of voters is proud of “vote by mail”! At first we missed the community aspects of polling stations but have come to appreciate the better participation and involvement for people who can vote by mail. It might even protect privacy and encourage independent thinking - hard to say. This system works! Put legislative energy in more critical areas - education, healthcare and housing.
