

Dear Oregon Legislature,

House Bill 3197 deserves all of our support. As a Licensed Substance Abuse Counselor in Klamath County I have seen the destruction caused by a lack of resources set aside for Youth whom are struggling from addiction. It's time for our state to set aside funds to be used in intelligent ways to help Youth.

Don't you want our state to be recognized as one that is committed in progressive thoughtful ways? Most would agree that Oregon has not distinguished itself as a progressive state in the world of Behavioral Health. It's time.

Support HB3197!
