Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Restriction to in person voting day of will hurt the voters. This will limit the voting turnout making it impossible for voters to get to the ballots: our seniors, our disabled, our stay at home parents, our doctors, nurses, our frontline workers, it will hurt our small business owners and cost them losses, it will hurt our local economy. The picture is much bigger than it looks on paper. There has to be another way to make the mail in voting meet criteria.
